A separate chapter showing therein statistical information relating to the University's achievements and developments during this period has been added to this Report. Similarly a map of the University Area indicating therein the centres of University education and a campus map showing the new constructions on the University Campus have been attached to this Report.

Following are some of the salient features of the year :

1. *Mahatma Gandhi Birth Centenary* .

The University would be celebrating the year 1969 as Mahatma Gandhi Birth Centenary Year, in its own way. A Chair in the name of Mahatma Gandhi viz , Mahatma Gandhi Professorship of Politics has been established in the Department of Politics. A National Integration Committee has also been formed with representatives of students and teaching staff. Plans have been made for holding a social service camp in May 1969 for students from *all* the Universities in the Maharashtra State at Khanapur, near Poona. The University has decided to have an Oil Portrait of Mahatma Gandhi for exhibition in the University Building. Apart from these, a seven days programme for celebrating Mahatma Gandhi Birth Centenary in the last week of September 1969 has been drawn up, in which among other items there will be an Essay Competition, Elocution Competition, Seminars, etc.

Dr. H. V. Pataskar, the Vice-Chancellor has been nominated by the Union Government as a member to a Seven-Member Jury, with the Vice-President of India as its Chairman, to select annually a person for " Jawaharlal Nehru Award for International Understanding. "

5. *Detector for Gas Chromatography :*

One noteworthy feature of this year's research in the Department of Chemistry is the development of a new Detector for use in gas chromatography. Being based on a new principle of electrodeless discharge, the detector has been acclaimed as distinctly superior to costly imported detectors based on thermal conductivity. The new detector was prepared in the Department from entirely locally available material. This will help in bringing gas chromatography to college laboratories. An imported detector costs about Rs. 20,000/- whereas the one made in the Department would cost not more than Rs. 3000/-.

6. *Accounts Code* :

The new Accounts Code was put into operation with effect from 1st April, 1968. During the year the office was required to prepare and maintain new registers and forms. CHAPTER XXIV

TWENTY YEARS OF THE POONA UNIVERSITY—A RETROSPECT

The following is the resumé of the work of the Poona University during the last twenty years :

1. The University has recorded an all-round progress ever since its establishment in 1949. There has been a steady increase in the number of Post-graduate Departments; greater facilities have been made available for teaching and research at the Post-graduate level; quite a good number of new courses have been started, and library facilities have been extended to cover a larger number of students. The interest of Teachers who play a central roll in any educational system has not been ignored.

Apart from the curricular activities, the University has succeeded in extending its external activities to rural areas and centres so that those who are not ordinarily covered by educational institutions could have the benefit of facilities for adding to their knowledge. Similarly, for those who are employed persons, and especially married women who are not ordinarily in a position to take the advantage of regular collegiate education, the facility for appearing at different examinations externally is made available and the number of such external students is increasing every year. This chapter will indicate the extent and spread of educational work as also the financial position of the University. It will also reflect how substantially the University Grants Commission is helping the University, in addition to the specific commitment in the conduct of the three Centres for Advanced Study whose entire expenditure is borne by the University Grants Commission. This chapter will give a general idea regarding the act[illegible] University in curricular, co-curricular and extra-curricular
